ALL VEHICLES AT A GLANCE

- Peace of mind for customers through
  the ability to see vehicle locations, health,
  and status in real time.

- Remain informed and updated through
  a complete overview of your machines' status,
  fault codes, and history in one single system.

- Understand when maintenance is required to
  proactively avoid breakdowns and costly repairs.

- Optimize costs by reducing idle time, fuel
  consumption and downtime.

- Supervise how equipment is being operated.

- Safeguard the investment in your equipment's
  resale value

INCREASED EFFICIENCY   **MAINTENANCE PLANNING**   **REDUCED COSTS**
